

	<p style="text-align: center;">Announcement</p> <p style="text-align: center;">Re: Security Policy</p>	Document No.	ART-MR-003
		Revision No.	00
		Effective Date	November 01, 2023

Art Event Company Limited foresees and places the highest importance on the security management system in order to ensure that the Company's properties and its customers' products including any confidential information are properly stored, controlled, and overseen, therefore, the Company determines the comprehensive course of security detailed as follows:

1. Security for the Company's properties and its customers' products

1.1 The Company implements the control and inspection of any incoming and outgoing employees and visitors to ensure that any persons accessing the Company have no dishonest intention against the Company's properties and its customers' products.

1.2 The Company implements the inspection and control of individuals/vehicles unauthorized to access the Company's facilities as the Company foresees that such persons lead to the risk of loss or damage to the Company's properties and its customers' products.

1.3 The Company implements the inspection and control of transfer of the Company's properties and its customers' products, both internal and external relevant areas, to ensure that any loss or dishonesty against the Company's properties or its customers' products is null.

1.4 The Company defines obvious timeframes for counting the Company's properties and its customers' products to confirm the accuracy of all properties or products.

1.5 The Company determines and prepares the work procedures to prevent any alternation, shuffle, mixture, dilapidation, or loss from the steps of receiving raw material to manufacturing.

2. Security for Information and Secrets

The Company places priority on this kind of security and understands the customers' need for security for storage of their intellectual properties and confidential information. Therefore, the Company strictly stores any information to provide security and prevent of disclosure of customers' information without their consent or utilization of the same with dishonest intention.

3. Security for Information System

3.1 The Company determines obvious authorities of access, management, and handling of information of each division. Any unauthorized persons requiring to access any information must be provided with written permission from the data subject or authorized executives.

		Effective Date	November 01, 2023

3.2 Any reproduction or printing of any confidential information is prohibited in whichever case unless written permission from the data subject or authorized executives is obtained.

3.3 The Company implements the data backup plan upon any system invasion and data modification.

3.4 The Company will not tolerate any acts deemed negligence or supporting any persons seeking benefits or accessing or interfering computer system, computer data, or computer traffic data of the Company.

3.5 The Company shall be entitled to inspect any data, programs, and other electronic documents stored in the Company's information system by any employees/operators to comply with the applicable laws and procedures.

4. Security Management

4.1 The Company will assess security risk and determine protective measures for employees, contractors, visitors, and stakeholders against any theft of properties or products, both internal and external relevant areas, including during transportation.

4.2 The Company will ensure that all security guards equivalently pay respect to the human rights and prestige of all persons and the physical power will be properly adopted as deemed necessary.

4.3 The Company will regularly review the sufficiency, suitability, and effectiveness of any policies, procedures, and performances to enable continuous rectifications, improvements, and development of its security.

This announcement is hereby issued for your information and collective compliance.

(Mr. Kangwan Piankijagum)

Managing Director
